PERSONAL PORTFOLIO

about

This is my first developing experience.

Using only basic web language, I focus all on content and logo.

This first approach want to be only a step inside new ambient.

1

Starting by imagine which color represent my personality. I choose black and white, that evoke reliability and confidence.

2

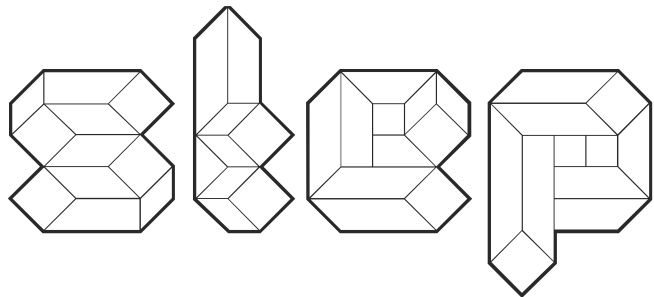

Try to describe my soft skills and interests, like a trip inside wonderland.

3

Realize a logo that can be both monogram and graphic sign or maybe icon.

4

Keep togheter a beginner website, with structure that can evolve mantaining its features.

STORY TELLING

EMOTIONAL BRANDING

Nav inside real life pills.

It's easy create engagement trough personal story.

Empathy helps understand each other, especially by sharing experiences.
